Summary

Full-stack web developer utilizing a technical writing background to create concise, scalable code. Attending the Coding Boot Camp through the University of Utah. A dependable, hard worker who has completed the bootcamp while working full-time in a demanding position. Proven to stay calm under pressure, learn quickly, and multi-task effectively, both in an individual and team setting. Looking forward to joining a results-driven team to contribute problem-solving skills, help develop quality code, and learn additional skills and software.

Technical Skills

JavaScript, SQL, NoSQL, MongoDB, React, RESTful APIs, server-side APIs, databases, JSON, Git, Node.js, Express.js, MVC, CSS, HTML, jQuery, APIs, Object-Oriented Programming (ORM), Object Relational Mapping (ORM), Progressive Web Applications (PWAs), Microsoft Office, Google docs, Adobe

Projects

EZ Plan | Interactive Front-End Project | github.com/jleatham78/road-trip

Utilized two server-side APIs (Ticketmaster and Zomato) to create an interactive web application that allows the user to perform a search for a specific city and date and find local events and restaurants. Event and restaurant details are displayed when the user clicks on the specific links. Technologies used: JavaScript, jQuery, HTML, CSS, APIs, Materialize.

Sugar Rush | Interactive Full-Stack Project | github.com/jleatham78/sugar-rush

Created a full-stack web application for a local soda shop where users can view the menu, then sign in to filter drinks by soda type. Primarily worked on the back-end setting up models, API routes, database, and seed files. Technologies used: JavaScript, HTML, CSS, Node.js, Express.js, RESTful API, Handlebars.js, MySQL, Sequelize, ORM, Heroku, Bulma, authentication (express-session, cookies).

Experience

Buyer | JD Machine | September 2019-current

Responsible for all quoting and purchasing activities for outside process suppliers.

- Manage an extremely full workload with many tight deadlines and have to re-prioritize work throughout the day depending on current demands. Work closely with Sales, Purchasing, Engineering, Shipping, and Receiving, and work directly with suppliers to address quality concerns and negotiate terms.

Owner | The Write Source | March 2010-September 2019

- Created professional business plans for clients. Put together financial charts including P&L and cash flow. Dealt with constantly changing workload and worked under tight deadlines for several clients simultaneously. Managed all record keeping.

Education

Certificate | Coding Bootcamp, University of Utah

Curriculum covered HTML, CSS, Git, JavaScript, jQuery, APIs (web, third-party, and server-side), testing, Node.js, Express.js, OOP, TDD, SQL, RESTful, ORM, MVC, NoSQL, MongoDB and React. Have completed two group projects creating a front-end application and full-stack application. Graduation April 2021.

Bachelor's Degree | Weber State University

Major: Technical Writing. Minor: Communications. 3.7 GPA
